

Quickol

Pre- and post-spotting agent for wet- and grease-bound stains

Quickol solubilizes oil paint, nail polish, lipstick, tar, smear, ballpoint pen, felt pen, shoe polish, skin cream, grease, wax, carbon paper, medicine, mineral oil, mayonnaise, cod-liver oil and similar stains.

Application:

Apply **Quickol** on the stain and treat with a soft brush. In case of aged stains or stains difficult to remove, let react longer time.

Then rinse with water or steam.

ATTENTION:

- For safety reasons, **Quickol** must never get into drycleaning machines operated with hydrocarbon or silicon solvents !
- In general, **Quickol**, a product containing solvent, should be used on the post-spotting table only !
- Do not use on coatings or laminations as this might cause damages !
- In case of sensitive textiles, dyes and prints, we recommend to try the product reaction on the seam prior to spotting.
- Do not intermix spotting agents !

HEALTH AND SAFETY RECOMMENDATIONS: Flammable.

Precautions: Risk of serious damage to eyes. Irritating to skin. Keep out of the reach of children. Keep container tightly closed. When using, do not eat or drink. Avoid contact with skin and eyes. Wear suitable gloves and eye/face protection. Vapors may cause drowsiness and dizziness. Do not breathe vapor.

First Aid: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, take off immediately all contaminated clothing and wash immediately with plenty of water. In case of accident, or if you feel unwell, seek medical advice immediately (show label where possible). If swallowed, seek medical advice -immediately and show container and label.
